Profile

Full stack web developer with experience in Ruby on Rails and JavaScript based programming. As a flight attendant I was able to build strong interpersonal and communication skills, which allowed for me to create lasting relationships between the customer and airline. Seeking to provide a fresh perspective and contribute to a team that values innovation and growth.

Skills

React, JavaScript, Ruby, Rails, SQL, Active Record, HTML, CSS, Git

Projects

MesaAwaits ⬀
Users are able to use MesaAwaits to book reservations at restaurants based off their location or the city they search for.
- Combined a Rails API backend with a React frontend to create an application where a user can book reservations.
- Utilized Yelp, Google, and Geolocation APIs to display restaurants according to user's location or based off of their search.
- Incorporated JWT authorization to ensure only users that were logged in had access to their favorite restaurants and reservations.

OHOHOH (Open Hands Open Hearts Open Home) ⬀
OHOHOH allows users to adopt pets and for the agency to approve or deny adoptions.
- Used JavaScript to render multiple pages for both the user and pet adoption agency in this single page application.
- Combined images and breeds from the dog.ceo API with pets we created to seed the database.

BeatDrop ⬀
Users can discover new music by previewing songs and/or music videos. As an artist, BeatDrop allows for you to share your music on your profile.
- Utilized Ruby on Rails to create a full stack application that promotes the discovery of music.
- Used CSS to style our page in a professional, yet inviting manner.

Professional Experience

Jan 2014 – present Seattle, Washington	**Delta Air Lines** *Flight Attendant* • NBA/NHL Charter Flight Attendant for the Seattle base, a position where only fifteen were chosen out of 1,400 flight attendants. • Was featured on the Delta Safety Video, airing on all IFE equipped flights. • Represented Delta at multiple events and conventions through their coveted IFS Brand Ambassador program.
Feb 2012 – Jan 2014 Honolulu, Hawaii	**Allegiant Air** *Flight Attendant* • Responsible for passengers, flight, and the crew as the lead flight attendant. • Worked with flight crew to get flights out on time, de-escalate issues in flight, and provide outstanding service. • Remained up to date on FAA regulations in order to keep flights and self compliant.

Education

Jun 2020 – Oct 2020 Seattle, Washington	**Flatiron School** *Software Engineering* Full Stack Web Development, Ruby on Rails and JavaScript programming
